EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven J. Henry on 6/22/2006.

The application has been amended as follows:

In claim 1 line 4, delete "a" (second appearance) and insert - - the - -; and after "fan" insert - -, said ideal TACH output being related to the ideal rate passing of the magnetic pole of the fan by the rotor --.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The amendment filed on 5/09/2006 has been carefully considered in view of the specification and the drawings of this application. The references of the record, such as Getz et al (6,940,235 or 2003/0006724 or 2005/0258789) and Mays II (6,545,438), either taken alone or in combination, fail to teach or suggest an ideal TACH output being related to the ideal rate passing of the magnetic pole of the fan by the rotor, or means for defining a time period for the rotor to rotate between two adjacent poles, or defining a time period for the rotor to rotate between two adjacent poles and using the defined time period to define an ideal TACH output for a specific rotation speed of a rotor of the DC fan as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
